Slushie Hire Instructions

START THE MACHINE AT LEAST 2 HOURS BEFORE EVENT.

- **DO NOT** use any ice in the machine
- **DO NOT** use any liquid that contains pulp, seeds, etc.
- **DO NOT** use only water!

1. Sugar content must be correct!
2. Too little sugar will result in ice build-up on barrel and sever damage will occur.
3. Too much sugar or alcohol will result in lack of freezing.
4. Machine must be placed on a level and sturdy surface.
5. Must have proper ventilation around machine when in use.
6. Do not put machine in sunlight, direct heat or in rain.
7. Machine must be under cover/roof at all times
8. To start the machine, all switches must be on.
9. Pour a bottle of 2lt slush mix and 8lt of water in each bowl. That will make 10 litres. It becomes 12 litres when ice expands.
10. If you are adding alcohol, wait for the machine to achieve a complete slush condition (slush mixture to be fully ready/frozen) before adding one bottle of 700 ml to 1 litre of alcohol of your choice.
11. When mixture is below the minimum level, turn the slush/freezing switch of and keep it on cooling mode until all mixture is served.

TOO MUCH ALCOHOL WILL RESULT IN LACK OF FREEZING

**TURN OFF THE MACHINE IMMEDIATELY IF CLUNKING IS HEARD OR
IF LARGE CHUNKS OF ICE ARE SEEN.**

If difficulty or machine fails to operate, please contact 0405 277 428. Do not attempt any repairs.

SLUSHIE MACHINE CLEANING:

1. Do not take the machine apart.
2. Fill each side with warm soapy water and dispense until thoroughly rinsed.
3. With a soft cloth, wipe down all sides inside and out of the machine.

Transport Instructions

Just to ensure that when you arrive to pick up the machine, that you can meet the following requirements:

- All pickups are to be made strictly in an SUV, Station Wagon, Ute or Van. Use ropes or straps to tie it in place.
- The vehicle used to transport the machine must have sufficient boot space as the machine cannot be placed on seats and needs to be standing upright at all times.
- That you or another person can physically lift the machine(approx. 50kg)

Slushie Hire Instructions

Instructions for GBG Slushy Machine

Place the machine on a sturdy base. You are about to add 65kg to the weight.

If you have any problems call: **0405 277 428**

1. Add the water to both sides.	** See Below
2. Add the mix to both sides.	
3. Plug machine in.	
4. Turn machine on.	  <p>Top Lights Switch</p>
5. Push this button on both sides to start the Augers.	
6. Push this button on both sides no 1 "Icicle" (If you are setting this machine up the day before, push this button to "CHILL" swiggy line on the switch - about an hour before use it press the button until "Icicle" is pressed).	 <p>  I - Freeze O - Off  II - Chill </p>
7. Add alcohol (if desired) wait till the mix is slushed up before adding.	
Alcohol Free Slushies:	Alcohol Slushies:
2L mix to 8L water Repeat for other side.	2L mix to 7L water + 1L alcohol Repeat for other side.

**** VERY IMPORTANT - Add water to the machine first as per instructions, sometimes a seal will be pinched at the back of the hopper. If this is the case, water will leak quickly from the machine, please call the number provided if this happens. The MIX MUST be added before you try and turn the machine to Icicle". Only the mix supplied with the machine can be used and any damage resulting from the use of incorrect mix will be the responsibility of the hirer.**
